

Cooler With You And Me

Written and Composed By: Anthony Holloway

Verse

Truck cleaned up, headed to the lake
Bass in the back making that tailgate shake
Girls in bikinis, sunglasses low
We got something they don't know

Pre-Chorus

Pop them doors, swing 'em wide
Whole party turns when the boys arrive

Chorus

Got that white lid open, looking VIP
Cracking silver cans, passing 'em out free
It's a ninety-degree burner, middle of July
Everybody melting underneath that sky
Yeah, the girls keep sticking close, everybody can see
This day's cooler with you and me

Verse

Grabbed them handles, down to the dock,
Music up loud, partying since one o'clock.
Cannonballs flying, making a splash
Living large without the cash.

Pre-Chorus

Shorts slide off, eyes go wide,
Boys all turn when them girls take a dive.

Chorus

Up that ladder, dripping on the wood
This midday party never felt so good
The mercury is rising, but that white lid's sealed
And them red Solo cups keep getting filled
Yeah, the girls keep sticking close, everybody can see
This day's cooler with you and me

Bridge

Sun going down, so we spark that fire
Take this lake-day party a little bit higher
Girls are dancing in the bonfire light
While we keep those silver cans cold all night

Chorus

Got that lid open, still a few down inside
Silver cans shining from a hell of a ride
Music playing softer with the moon hanging high
Looking back and laughing how the day just flew by
Yeah, you got your girl and I got mine, naturally
This day's cooler with you and me

Outro

Tailgate down, sunrise on the trees
This day's cooler than it oughta be
