

# I Take It All Back

Written and Composed By: Anthony Holloway

## Verse

I was up at two with the porch light on  
Telling my heart you were almost home  
But you were out there acting single again  
And I was just making excuses for men

## Pre-Chorus

I bought every line, every last little act  
But tonight I'm done — yeah, I'm done with that

## Chorus

I take it all back  
Every word I ever said  
I take it all back  
Every tear I ever shed  
Every moment, every hug, every love you we said  
Boy, I take it all back

## Verse

You'd say "it's work," but it never made sense  
Same old story, same weak defense  
And I'd forgive you like it was my job  
But I ain't Jesus and you ain't God

## Pre-Chorus

So take your "baby, I swear," take your pretty lies  
I can see the truth in your bloodshot eyes

**Chorus**

I take it all back  
Every prayer I said for us  
I take it all back  
Every time I bit my tongue  
Every second I believed you'd change like that  
Boy, I take it all back  
Yeah, I take it all back

**Bridge**

You don't get to miss me now  
When you never treated me right  
I was holding us together  
Now I'm taking back my life

**Pre-Chorus**

Go on, tell your friends I'm a cold goodbye  
Truth is I just finally chose my life

**Chorus**

I take it all back  
Every word I ever said  
I take it all back  
Every tear I ever shed  
Everything I gave you — I'm taking it back  
Boy, I take it all back

**Outro**

I take it all back...  
Yeah, I take it all back...
