

Perfect View

Written and Composed By: Anthony Holloway

Verse

Daylight breaking through the curtain
Coffee getting cold but I'm not hurting
Every little dream I chased down roads
Brought me right here where my heart knows

Pre-Chorus

I've been looking for a sign that feels this true
Turns out all along it was you

Chorus

I've seen sunsets falling red and gold,
Wide open skies that never get old
I've seen oceans reaching past the blue
But Standing next to you is the perfect view

Verse

Chasing daylight through a thousand towns
Lost a few things just to see what's found
Every scar became a stepping stone
To the place where my heart feels home

Pre-Chorus

I'm not scared of where the years might go
'Cause loving you is all I know

Chorus

I've seen mountains wake in morning light
Fields of green rolling out of sight
I've seen stars make the darkness move
But Standing next to you is the perfect view

Bridge

When the days fly by and the nights feel long
When the fire fades into something strong
I won't miss a step, I won't lose my way
Long as you're beside me, I'm okay

Chorus

I don't need a world that's breaking through
Don't need a skyline or a perfect moon
Every prayer I whispered came true
Standing next to you is the perfect view

Outro

Yeah, forever feels brand new
Standing next to you is the perfect view
