

# She Broke The Heart

Written and Composed By: Anthony Holloway

## Verse

She said forever, then left in a rush  
Took her perfume and my last trust  
Now that "for better" turned out for worse  
Guess I'll drown that promise till it don't hurt  
Ain't sitting here crying in the dark  
I'm two-stepping with my broken heart

## Pre-Chorus

If I'm going down, hell, I'm going tonight  
Might as well do it under neon light

## Chorus

So pour one for the memories,  
Two for the pain,  
Three for the things I can't explain  
She hit me hard, that's for sure,  
but the bartender's got the cure  
Yeah, love don't last, but whiskey delivers  
She broke the heart, I'll break the liver

## Verse

She took the dog and the Ford and the ring  
Left me the bar tab and these old strings  
Now every sad song turns into a grin  
Because heartbreak's better when the shots kick in  
No use chasing what's off the track  
I'm talking to Jack and he talks back

### **Pre-Chorus**

If I can't forget what we used to be  
I guess the whiskey can do it for me

### **Chorus**

So pour one for the wreckage,  
Two for the truth,  
Three for the nights that never came through  
She hit me deep, that's for sure  
But I'm top shelf healing on this floor  
Yeah, I'll raise what's left and call it a winner  
Because if she broke the heart, I'll break the liver

### **Bridge**

Hey, raise 'em high, everybody's been there  
To the lost loves, the late nights, I don't care  
We'll toast the pain till it's out the door  
Then holler for one more pour

### **Chorus**

Now pour one for the freedom,  
Two for the grin,  
Three because I ain't never hurt like this again  
She hit me hard, that's for sure  
But whiskey shows me what is more  
Yeah, the hurt's still there, but fading quick  
Because she broke the heart, I'll break the liver

### **Outro**

Maybe I'll forgive her  
Maybe I'll forgive her  
So barkeep, keep them coming  
Just a little mercy quicker  
If she damaged the heart, hell, I'll damage the liver
